DETAILED ACTION

Request for Continued Examination

1. The request for continued examination (RCE) under 37 C.F.R. § 1.114 of Application No 10/025,548 filed on January 7, 2004 is acceptable. An action on the RCE follows.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-9 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The newly added catalyst activity limitations of "at or around 44,800 g-polymer/g-catalyst" in Claim 1, "at or around 52,900 g-polymer/g-catalyst" in Claim 2, "at or around 49,500 g-polymer/g-catalyst" in Claim 5, "at or around 49,700 g-polymer/g-catalyst" in Claim 6, "at or around 50,100 g-polymer/g-catalyst" in Claim 7, "at or around 52,800 g-polymer/g-catalyst" in Claim 8, and "at or around 54,600 g-polymer/g-catalyst" in Claim 9 are new matter. Applicants' disclosure in Tables 3 and 4 of the Specification only support those catalyst activities at those specified points with specified catalyst compositions of the working examples, the disclosure does not support catalyst activities at or around those

specified points and with the catalyst components in the specified ranges of the instant claims.

Applicants are advised to file a continuation in part application (if it is possible) to disclose the activities of the catalysts of the instant claims in range in order to overcome the new matter rejections supra.

Response to Arguments

4. Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.
